

How we got here!

It all started with a Pretty Cut & Grow Doll. Allow me to explain: When I was a little girl I loved dolls. None of which, under my care, carried a very long shelf life, mainly because I also loved scissors!

From Barbie to Cabbage Patch, their magnificent manes were eventually reduced to a pixie cut. Have you ever seen what a curling iron does to Skipper's hair? Pixie cut.

But then Santa, in all his wisdom, left a Pretty Cut & Grow under the tree at Christmas. And in that moment, I realized there would always be hair! I've been cutting and coloring hair ever since. From Barrett & Co. School of Hair Design to Designing Women to Afterglow Salon & Spa, this has always been my work, my passion.

A Frankfort resident since 1997, I am forever thankful for the support and patronage of this great community. We have grown this business together!
